

GRIFLEX

hose & ducting solutions

Also Available

MH - Clear PVC Tubing

FP - Clear Polyurethane TubingHN - Clear Braided PVC Hose

XL - Lightweight Clear Braided PVC

Hose

HNHIVIS

Hi Visibility Braided PVC Hose

A lightweight high visibility PVC hose, manufactured from two layers of clear flexible PVC bonded together encapsulating high tensile polyester fibres. Tough, flexible and extremely durable under normal operating conditions. It is resistant to a wide range of chemicals. Minimum frictional loss is achieved by the smooth bore.

Applications

HN can be used to convey many liquids and gases under pressure. Applications include factory air lines, pneumatic equipment and general workshop use.

Construction

Two layers of clear flexible PVC bonded together encapsulating high tensile polyester fibres.

Colour

Standard - Hi-viz Yellow, Orange and Green with White Liner Other colours available subject to minimum order quantity

Temperature Range

-10°C to 60°C

Size Range

3/16" to 2"

Other sizes available subject to minimum order quantity

Standard Length

30m and 100m Coils

Other lengths available subject to minimum order quantity.

Special Features

- · Hi visibility colour for standing out
- Outstanding resistance to the effects of weather
- · Minimum frictional loss is achieved by the smooth bore
- Excellent chemical resistance

HNHIVIS - Hi Visibility Braided PVC Hose

Product Ref.	Internal Dia.	Internal Dia.	External Dia.	Wall Thickness	Weight	Min. Bend Radius	Working Pressure	Coil Length
	Inches	mm	mm	Overall mm	kg/m	mm	Bar	Metres

HNHIVIS160	2"	50.0	61.6	5.8	1.31	325	7	30

All sizes are nominal and normal manufacturing tolerances apply.

Special Sizes are available on request but may be subject to Minimum Order Quantities and Leadtimes.

- (i) Maximum working pressure is based on a factor of safety of 3:1 on short term burst pressure at 20°C. If the temperature increases, please refer to the temperature
- (ii) Lengths detailed above are as standard, however variations may be available subject to minimum order quantities. Weights are approximate dependent upon working tolerance and density of materials.
- (iii) Bending diameter information is intended as a guide to the minimum bend radius at 20°C ambient temperature without restricting the bore. It does not mean that the hose cannot be bent below the given dimensions but restriction is likely to occur.
